

THE SHOAH FOUNDATION.- (SCRIPT)

All over the world atrocities continue to be committed in the name of racism, bigotry and intolerance.

Imagine if young people could experience eye-witness accounts of such crimes against humanity. Would it change them? Could it change the world?

The Survivors of the Shoah Visual Foundation knows it can.

① *The holocaust should be a lesson not only to Jews but to mankind, to what hatred can lead*

The survivors of Shoah have given us all a powerful message for the future. Now it's up to you to help deliver that message.

②.... *The day will come when all the survivors will be gone, but those 52.000 testimonies will still be there. And someone needs to take responsibility now for ensuring their preservation and ensuring they are used for educational purposes.*

The way to take responsibility for the future is by making contribution to the Shoah Foundation now.

Overcome racism and violence is our collective responsibility. The Shoah Foundation needs your help to assure that the thousands of stories we have recorded will be seen for generations to come.

③ *I know I have an obligation to see through it that the story of these tragic days will be recorded forever and carried from generation to generation.*

④ *It's not an issue of forgetting or forgiving. It's an issue of learning.*

⑤ *I see how you have to be involved because if not, God forbid, the same thing can happen again.*

⑥ *One person has influence over so many other people. People think that only one person can't make a difference, but they can, they really can, because they can touch other people.*

**“To overcome prejudice,
Intolerance and bigotry
- and the suffering they cause-
through the educational use
of the Foundation's visual
history testimonies”**
